

JC School of Public Health and Primary Care  
Faculty of Medicine  
The Chinese University of Hong Kong

## **Short Courses in Master of Science in Health Services Management (2025-2026 Term 2)**

### **BACKGROUND**

JC School of Public Health and Primary Care, The Chinese University of Hong Kong offers courses and degrees across all areas of public health practice. We offer all students grounding in professionally recognized competencies and in areas increasingly recognized as core to public health. We also offer courses in areas of special interest – including epidemiology, environmental health, health promotion, health management.

Short courses are available either as standalone opportunities or as a component part of certificate, diploma or degree programmes within JC School of Public Health and Primary Care. They aim to provide continuing education opportunities for those interested in health and healthcare.

For further information website: [www.sphpc.cuhk.edu.hk](http://www.sphpc.cuhk.edu.hk)

### **ORGANIZER**

The short course is organized by Master of Science in Health Services Management, JC School of Public Health and Primary Care, The Chinese University of Hong Kong.

### **PROGRAMME OBJECTIVES**

To provide training including public health perspectives and skills necessary to assume effective leadership in public health practice, reflecting the three domains of health improvement, health protection and health service quality.

### **ADMISSION REQUIREMENTS**

A bachelor's degree preferably in medicine or an approved related field. For non-professional degree holders, honours not lower than second class are required.

## **TEACHING FACULTY**

- Courses will be taught by the academic staff, and the affiliated local and international staff, of JC School of Public Health and Primary Care.
- To meet the multi-disciplinary demands of the curriculum, JCSPHPC engages teaching staff from local faculties of nursing, economics, law, pharmacy, business, journalism, geography, and social sciences. We also engage outside experts and collaborate extensively with stakeholders in public health practice, such as the Department of Health, Hospital Authority, Food and Environmental Hygiene Department, and other public institutions.
- JCSPHPC will continue to capitalise on its long established network of international schools of public health (e.g. Johns Hopkins University; University of Oxford; London School of Hygiene and Tropical Medicine; Peking University; and Fudan University), as well as an extension network of public health institutions such as the US Centres for Disease Control and Prevention (US CDC), Chinese Centre for Disease Control and Prevention (CDC China), Shenzhen CDC, Bureau of Health of Shenzhen Municipality, and British Columbia Centre for Disease Control (BC CDC) of Canada.

## **LANGUAGE**

English will be used as the language for instruction.

## **RECOGNITION**

CME Accreditation

## **ASSESSMENT**

Students are required to obtain a ‘satisfactory pass’ in the assessment for the specified module(s). Upon satisfying these requirements, the “Certificate of Completion” for the selected module will be awarded.

Students who attended at least 60% of the lectures, seminars, tutorials, and practical sessions but did not take the assessment would be awarded a “Certificate of Attendance” instead.

## Course Pattern

Course Code	Module	Unit	Duration	Page No.
<i>Term 2 Jan 2026 – Mar 2026</i>				
HSYS5011	Health Informatics	1	Jan – Feb 2026	4
HSYS5016	Health Services Planning	1	Feb – Mar 2026	5
HSYS5024	Driving Healthcare Improvement with Data	1	Jan – Mar 2026	6

**HSYS5011 Health Informatics**  
**Course Coordinator: Dr. NT Cheung**

**(1 credit)**

**Course Description**

This course provides an overview on the key concepts of health informatics and the transformation capability of information technology in modern industries, with an emphasis on the principles of healthcare information systems as well as the importance of informatics in enhancing management effectiveness and achieving managerial goals in healthcare settings. The local and international development of health IT and related challenges will also be discussed.
